Re: Continued Appreciation

Dear Huny:

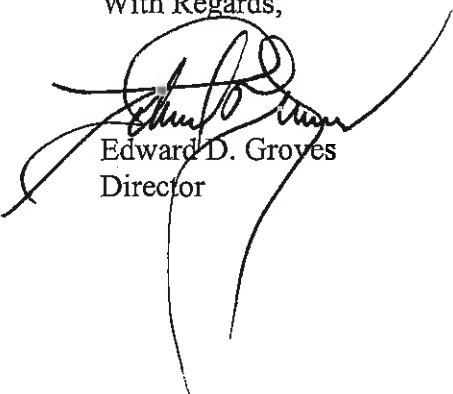

Happy New Year and I sincerely hope all is well with your family and your wife is comfortable with her present pregnancy.

I would like to take this opportunity to again express my appreciation for the excellent and timely efforts in your achievement in obtaining Permanent Residency for my business partner and his wife. All of us are thrilled that the process period was so rapid and professionally accomplished by you. You did a great job in getting Donna's and my residency approved as well as our oldest daughters. Now that our youngest daughter has decided to apply for Permanent Residency in New Zealand we know that you will handle her case as expeditiously as you have performed in the past.

We expect some additional friends and possible family members may wish to seek your professional services in obtaining residency and other legal matters. Without question, we will refer this legal business to you.

Again our sincere thanks,

With Regards,

Edward D. Groves
Director
