CLIENT TESTIMONIAL

By way of brief background, Chas Wilson Realty Ltd., trading as Ray White City Apartments, has 39 sales agents, licensees and administrative staff. Ray White City Apartments was second in New Zealand and seventh Internationally in the well established Ray White Franchise Awards for the 2009 year. The Company is consistently in the top few of the Ray White Group.

We have found Marcus, John, Tina, Bradley, Joseph and Sandra and in fact all the members of Queen City Law a joy for our company to work with over the last five years.

We have enormous respect for their legal abilities and have referred a significant number of people to the firm for conveyancing and property related services.

We also use Queen City Law as our own preferred legal suppliers and deeply value the quality of work the firm has done for our company.

These services have included the whole ambit of commercial and day to day business and commercial law issues as well as property law issues which a company like ours deals with on a daily basis.

The firm is also an extremely good bouncing board and has provided us with other forms of strategic and motivational advice.

We very much enjoy the boutique nature of the practice where all lawyers of the firm with their own unique skill sets are immediately accessible to us.

Earlier in the year, representatives of our company and Queen City Law were invited to a New Zealand Property and Immigration exhibition in three of the main centres of India. Bradley So of Queen City Law went on Queen City Law's behalf and performed extremely well. Sir Richard Hadlee was also part of this group and was a fine ambassador for New Zealand.

The practice has also added value to our own business on different levels and we would not hesitate to recommend Queen City Law to any other company requiring a dynamic yet thorough legal representation.

We are also aware that the lawyers at Queen City Law have acted for developers on the construction of some 2000 units around Auckland's Central Business District. Their knowledge basket in this area is as good as any other law firm in the country and the firm also has demonstrable and considerable expertise in other areas of the law including commercial law, property law, immigration law and litigation.

We are proud of our association with Queen City Law and feel they are incredibly well positioned in terms of representing investors from burgeoning jurisdictions such as North Asia and the sub continent of India and have an enviable array of language capabilities including Indonesian, Chinese, Korean and Filipino.

The practitioners have high integrity and are at the same time street smart and practical.

Yours faithfully,

Chas Wilson Realty Ltd
(RAY WHITE CITY APARTMENTS).
