**Subject:** thanks

Hi Marcus

Nice to see you and catch up last week. I just wanted to say thank-you and congratulations on your team.

I asked Jayesh for favour to get a signature witnessed and had no idea of the huge job it was going to be to get the task done. Your staff Huny and Yee Lin were brilliant. Under great pressure and with no idea who I was they were helpful, oriented on getting the job done and still remained friendly.

It looks as if you are building a great team there and it was nice change to go to a law firm and feel like they were there to help the customer and didn't have a pole stuck up their ass at the same time. Please pass on my thanks to them.

Perhaps if you have time one day we could sit down and have a coffee. Now that I have sacked Metro Law we will be looking to get some new legal guys for our work in Auckland.

Cheers
